6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) \* 

I believe that with my academic integrity that its fair to use AI content generators. This is because they can be a powerful tool for ideation, or it could be good if you already have an idea and need to expand on it. However, directly copy pasting from AI content generators is not okay, as you are not learning/that is not your work.

7. Did you use AI tools for this submission? \* 

☒ Yes

☐ No

8. For this submission, how would you rate the relative contribution made by your versus AI? \* 

	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences) \* 

For this submission, AI helped me with breaking down the different API's and making requirements for each of the personas, which I then used. In addition, AI helped me learn how to create a WBS, and what makes appropriate tags/how to structure one.

11. List the name all the AI tools that you used for this submission \* 

QwQ-32B.

12. How confident were you in AI's responses that you received? \* 

- ☒ Confident
- ☐ Somewhat confident
- ☐ Neutral
- ☐ Somewhat not confident
- ☐ Not confident

13. How did you ensure the answer you received from the AI tool was correct? \* 

I fact-checked everything AI outputted- basically, I would compare AI's response to what going on legimate sources told me.

14. Did you at any point abandon using AI tools and seek other resources? Explain your answer.  
(optional)

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

No, did not abandon using AI at any point as it was a useful research tool and enhanced my productivity in relation to this milestone.

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. \* 

Slightly used AI to proofread my script and make sure that it flowed well, but I entirely wrote the WBS all on my own. In addition, AI did not complete text as I typed everything out myself. For text ideation and research, it is split half as I would use AI to generate/finalize ideas, and then I would do my research on the ideas it generated/would expand on the ones it gave, doing it in my own words. Summary and text analysis were a slight use of AI, as I occasionally used AI to parse through articles to bring out the big ideas, but I mostly read these articles and extracted the information on my own.
