6. Please explain your rating above regarding academic integrity of AI use for this submission. Why? (Write in 2-3 sentences) * 🔊

I believe that with my academic integrity that its fair to use AI content generators. This is because they can be a powerful tool for ideation, or it could be good if you already have an idea and need to expand on it. However, directly copy pasting from AI content generators is not okay, as you are not learning/that is not your work.

16. Please explain your ratings above, especially if you have AI tools for "other" types of work. * 🔊

Slightly used AI to help proofread my script and to make sure that it flowed well. Slightly used AI for text ideation, analysis, and summary as I used AI to ideate the requirements for the different personas, analyze the documentation for features, and summarize the documentation. Lastly, for research it was split half as I would let AI find different resources/documentation for the API's
